

I am very disappointed that Sinclair's TV stations are going to run a two hour commercial for a particular candidate two weeks before the election.

I am particularly concerned that WGGB, in Springfield, MA is participating. This is not serving the community, this is using a public resource to blatantly favor a single political view.

I ask that WGGB's clearly partisan position be considered when their license comes up for renewal, and that the FCC strongly consider giving their license to a more responsible community based organization.

Thank you.
